SIGNATURE LOOK

- Classic serif display titles + clear sans-serif worksheets.
- Fine rules, calm spacing, generous handwriting room.
- Purposeful category accents; mostly light, low-ink interiors.
- Distinctive covers; functional worksheet pages.

Brand promise: a printable should be beautiful in a thumbnail, legible on a home printer, and genuinely useful after purchase.

The consistent design DNA

These rules should apply to every collection, whether botanical, reflective, organizational or educational.

01 / TYPOGRAPHY

A recognizable typographic hierarchy

COVER TITLE	32-42 pt	Editorial serif: EB Garamond or Libre Baskerville; fallback Georgia.
INTERIOR TITLE	19-24 pt	Same serif family; use sentence case, not shouty all-caps.
BODY / PROMPTS	10.5-11.5 pt	Inter, Source Sans 3 or Arial fallback; avoid thin weights.
TABLE LABELS	9-10 pt	Semibold sans serif; short labels and visible column separation.
MICROCOPY	8.5-9 pt	For page numbers and secondary labels only; never key instructions.

02 / PRINT-FIRST

Interior layout rules

- US Letter: 8.5 × 11 in; A4: 210 × 297 mm. Keep 0.6-0.7 in / 15-18 mm safe margins.
- Writing lines: 0.32-0.40 in apart. Use subtle gray-green rules with ample input areas.
- Prefer white or ivory interiors; avoid full-page color fills and dense background textures.
- Use one primary accent per product. Decorative artwork belongs mostly on covers and section openers.
- Keep page numbers consistent and visible, and never label repeated pages “Extra 1” or “Extra 2.”

Four coordinated style families

Choose by purpose; all share the same refined type hierarchy, light paper treatment, spacing and cover quality.

01 CLASSIC BOTANICAL

Garden planners • herbs • nature

Warm ivory + sage + olive

Thin botanical line art, restrained green chapter tabs, open log tables.

02 HERITAGE EDITORIAL

Journals • guided workbooks • menus

Ivory + charcoal + warm stone

Classic title typography, fine framing, generous whitespace and quiet symmetry.

03 SOFT REFLECTION

Wellness • mindfulness • reflection

Cream + dusty blue + mist

Low-stimulation layouts, supportive prompts, no clinical claims or pressure.

04 REFINED UTILITY

Organizers • charts • learning

Warm white + charcoal + muted plum

Tight information hierarchy, spacious grids and crisp column labels.

Herb planner: the first showcase

Apply Classic Botanical to the actual PDF, correcting structure as well as appearance.

COVER ART DIRECTION

The Herb Garden

PLANNER

A beginner-friendly journal for planting, tending and harvesting herbs.

REVISED FLOW

01	Cover + This Planner Belongs To	Watering + Sunlight Logs
02	Welcome / How to Use	Feeding + Harvest Logs
03	Garden Goals + Herb Wish List	Garden Notes + Seasonal Review
04	Seed Inventory + Pot Planner	Reuse unlabeled logs as needed
05	Herb Profiles + Planting Planner	Optional starter herb guide

PRODUCT-SPECIFIC CORRECTIONS

Move the “This Planner Belongs To” and “Herb Wish List” pages to the beginning; replace duplicate labels such as “Herb Profile Sheet - Extra 1” with the standard page name; give the blank worksheet pages more writing space and section variety.

Rules for Printable Studio

A design system the application can apply automatically, with your creative control preserved.

STEP 1 / CHOOSE THE FAMILY

Match product type to a family: Garden → Classic Botanical; Journal/Menu → Heritage Editorial; Wellness → Soft Reflection; Organizers/Learning → Refined Utility.

STEP 2 / BUILD CONTENT FIRST

Honor specifically requested worksheets. Organize pages in a natural start → plan → track → review sequence. Do not pad page counts with unexplained duplicates.

STEP 3 / MAKE A COVER + INTERIORS

Create a distinctive cover, optional section openers and useful interior pages. Apply one consistent visual hierarchy, not an identical layout on every sheet.

STEP 4 / EXPORT BY PLATFORM

Etsy: customer-friendly US Letter/A4 PDFs and preview images. KDP: separate trim-specific interior and calculated cover. Pinterest: legible vertical promos.

STEP 5 / REVIEW BEFORE PUBLISHING

Inspect every page for clipping, legibility, accurate prompts, usable writing space, and originality. Check KDP requirements and marketplace disclosure rules at publication.

TREND POLICY

Refresh palettes and cover details seasonally, only when they fit the product. Never sacrifice readability, usability or brand recognition to imitate a short-lived trend.
